He feels this way, it is generally understood, because of the fact that the House District Committee has repeatedly passed upon the very questions such an investigation would be repeated to success the House and

The action of the House District Committee yesterday was precipitated by Representative Winslow, of Massachusetts. Mr. Winslow is a business man of marked success, and is accustomed to viewing affairs through the practical eyes of a business man. He has expressed several times his disapproval of the haphazard methods of the District Committee in settling piecemeal and without sufficient information questions of grave moment to the District. Following a two hours' discussion in the committee yesterday, in which the question of an investigation by a commission was debated at length. Mr. Winslow suggested that a vote be taken to determine whether the committee really falsoton, asked the House Immigration Committee, prevented the resumption of debate in the committee.

In a communication to the House the Secretary of the Treasury asked for an appropriation of \$150,000 for the installation of additional mail-handling devices in the new postoffice in New York City. It is proposed to install what are known as belt conveyors, which will handle 1,000,000 pieces of mail a day, thus doing a way with trucks now in use. It is estimated this will save more than \$500,000 a year.

James F. Jackson, representing the Bay State Street Railway Company, of Boston, asked the House Judiciary Comne whether the committee really fa-red an investigation. The question as the form the investigation should take was left open.

A viva, voce vote was taken on the proposition and carried, Chairman Johnson withholding his vote and Representative Coady, of Maryland, voting "no" because of the broad powers outlined by

dr. Winslow.

The committee thereupon adjourned without discussing the form which the

investigation should take. There are before the committee three five members of a commission of nine, to investigate the "fiscal relations" be-tween the District and the Federal gov-ernment and to report to Congress its findings, conclusions, and recommenda-tions. Under the Cooper resolution the remaining four members are to be sointed from the House and Senate he Speaker and the Vice President.

The question almost certainly will come up Monday with discussion of the

bill. Both George and Prouty will offer their resolutions as amendments to the bill. As the bill, if it passes in the amended form, even in the House, is doomed to certain de-feat in the Senate, and is not certain of passage in the Senate even if passed by the House in its original form, the action of the House may be taken largely as a straw in the wind.

have been posted in every schoolhouse in Prince Edward County, Va.: "I believe that the country, which God made, is more beautiful than the city, which man made; that life out of doors and in touch with the earth is the natu-ral life of man. I believe that work with nature is more inspiring than work with the most intricate machinery. I, believe that the dignity of labor depends not on what you do, but how you do it; that op-portunity comes to a boy on the farm as often as to a boy in the city; that life is larger and freer and happler on-the farm than in the town; that my success depends not upon my location, but upon my self, not upon my dreams, but upon what I actually do; not upon luck, but upon pluck. When a man suffers all the inconvenience, the humiliation, the embarrassment of catarrh for 25 long years, spending hundreds of dollars and much valuable time on alleged remedies without any success, and then suddenly finds a means that cures him almost like magic, it is his plain duty to see that all the world is made to hear of it: You Can Try and Prove This Go.

It makes no difference how bad your Catarrh or Asthma may be, the very tret use of this treatment will bring

you instant relief. I tell you to depend upon it absolutely.

For all those years I went about haif ashamed of myself, always conscious of the nauseating and disquating practices I was forced to indulge in. I couldn't help hawking, spitting, sneeding, and blowing my nose, no matter where I happened to be (just as you do if you are a catarrh victim), and I was well aware that people shunned me like a leper and kept away from my vile breath and filthy habits as much as they could.

After I had tried about everything (haif a hundred different remedies). I learned of this wonderful Swiss treatment and had proved to me some of the remarkable results it had brought about. I tried it and was better in an instant. In just a short time I was well and free from that awful catarrh.

I was so pleased, so thankful, that I determined every one should have the chance to profit by it.
